

English in Gozo

Italian & Culture in Italy

Clubclass Residential Language School is introducing multiple destination programmes in the Mediterranean. Through our partner schools in Gozo and Italy, we are offering English courses in Gozo; and courses in Italian & Culture in Italy. These programmes are offered in conjunction with our English language courses in Malta. Like Clubclass, both our partner schools are accredited and highly experienced schools, offering professional tuition and services to their students which are second to none.

English in Gozo

Gozo is a beautiful island with a quiet and different personality from Malta. It is also greener and more fertile, and portrays more of a way of life based on agriculture and fishing. Life on Gozo is slower and more relaxed than that on Malta. The people are friendly, with a fairly laid-back attitude to life that appeals to most visitors.

Our partner school is located in Kercem. This typical Gozitan village is situated in the countryside and set in a relaxed, serene and picturesque environment, only a 5 minute drive from the capital Victoria.

This small family run school offers quality tuition and personalised, flexible, tailor made courses all year round. Courses offered include General English Group Courses and Individual Programmes in General English, Business English, Executive English and English for Special Purposes.

The school offers a complete package - tuition, accommodation, leisure activities and airport transfers. Catering facilities are available in-house and leisure facilities include a garden and a sun terrace. Accommodation options include standard home stay, superior home stay, countryside self-catering apartments, seaside self-catering apartments and hotel accommodation in 3, 4 and 5 star hotels.

Italian & Culture in Italy

The island of Sicily is located at the southern most tip of the Italian peninsula, only 90 km away from Malta. With its sun and beaches, its forests and rolling golden hills, its snow-topped volcano Mount Etna, and its central position in the Mediterranean Sea, Sicily has always been at the centre of Mediterranean civilisation. Sicily has an amazing heritage in art and history, and it is here where the roots of the whole Italian culture can be found.

Our partner school is located in Taormina. This beautiful town on an old hilltop, full of history and culture, is perfectly situated to offer students easy access to the sea and to the beautiful and historical treasures of Sicily.

The school offers Italian language courses alone or in conjunction with other programmes such as cooking, diving, hiking, biking and golf. It also offers cultural courses in Italian literature, art and history.

A wide variety of accommodation is available including shared student apartments, independent apartments, home stay and hotel accommodation in 2, 3, 4 and 5 star hotels.
